Tamil- Basic

OBJECTIVES

Motivated first-year BSc (Hons) Biotechnology undergraduate at SLIIT with a solid foundation in Advanced Level Biology and Chemistry, a keen interest in laboratory work, and biotechnology research. Seeking an entry-level Biotechnology Trainee or Internship opportunity, such as the Junior Research Associate-Genomics role at the Sri Lanka Institute of Biotechnology (SLIBTEC), to gain hands-on experience and build a strong foundation for a career in biotechnology.

VOLUNTEER EXPERIENCE

School Environmental Clean-up Programme
Volunteer | Dammissara National School

- Participated in school and community environmental clean-up activities.
- Promoted environmental awareness and sustainable practices.
- Collaborated effectively with teachers and fellow students to organize and complete activities.

EXTRACURRICULAR ACTIVITIES

- Member of Senior Western Band - D.N.C.
- Member of badminton team - D.N.C.
- Member of Art Club - D.N.C.

TECHNICAL SKILLS

- Microsoft Word, Microsoft PowerPoint & Microsoft Excel
- Internet & Email
- Basic Laboratory Skills

1. Job Vacancy Identified

Position: Junior Research Associate – Genomics

Organisation: Sri Lanka Institute of Biotechnology (Private) Limited (SLIBTEC)

Location: SLIBTEC Phase I Building, Mahenwatte, Pitipana, Homagama, Sri

Lanka Source: https://slibtec.gov.lk/vacancies/

Advertisement summary:

- Field of work: Genetics, Molecular Biology, and Genomic Technologies
- Hands-on experience offered with Next Generation Sequencing (NGS), Sanger Sequencing, and Exome Sequencing
- Candidates with a background in sequencing technologies, or hands-on experience with platforms such as NextSeq or MiSeq, are encouraged to apply
- Role involves working alongside research scientists in a collaborative genomics research environment

2. Prompt Used to Generate the Objective

"I am a first-year undergraduate student studying BSc (Hons) in Biotechnology at SLIIT. I have a solid background in A/L Biology and Chemistry, basic laboratory interest, and introductory IT skills. Please generate a professional 2-3 sentence Career Objective for my CV for an entry-level Biotechnology Trainee/Internship position."

3. AI-Generated Output (Original)

"As a first-year Biotechnology undergraduate at SLIIT with a strong foundation in Advanced Level Biology and Chemistry, I am eager to apply my growing laboratory and IT skills in an entry-level Biotechnology Trainee or Internship role. I am committed to gaining practical experience and contributing effectively to a dynamic research or industrial biotechnology environment."

4. Final Edited & Personalized Version (Used in CV)

"First-year BSc (Hons) Biotechnology undergraduate at SLIIT with a solid foundation in Advanced Level Biology and Chemistry, a keen interest in laboratory work, and introductory IT skills. Seeking an entry-level Biotechnology Trainee or Internship opportunity, such as the Junior Research Associate – Genomics role at the Sri Lanka Institute of Biotechnology (SLIBTEC), to gain hands-on experience and build a strong foundation for a career in biotechnology."

5. Reflection on Ethical AI Usage

The AI provided an initial draft for the objective. I reviewed and personalized the generated text to ensure it accurately reflects my current academic stage as a 1st-year student at SLIIT and my actual career aspirations in biotechnology, including tying it to the specific SLIBTEC vacancy I identified, rather than submitting the AI output as-is.
